

NEKTON-Dog-H

Vitamin compound to improve
skin and coat for all dogs

NEKTON[®]
PRODUKTE
...tierisch gut!

NEKTON-Dog-H ensures a beautiful shiny coats and excellent hair formation

NEKTON-Dog-H is highly-effective against:

- rough and brittle coats
- unnaturally light spots
- skin changes

NEKTON-Dog-H contains all necessary vitamins for dogs and an additional significantly increased amount of biotin - around two million µg/kg. Biotin is involved in a variety of important metabolic reactions and supports the dog's growth, feed rate and procreation

It is often the case the biotin cannot be sufficiently synthesized by the animal and for this reason, it must be supplied from outside.

If the dog does not have enough biotin available, typical signs of biotin deficiency can appear quickly, such as:

- brittle, dry and drab fur by the dog
- graying of the hair, which later becomes brittle and frequently falls out
- flaky and faded skin
- In serious cases - eczema and itching.

Another reason for a biotin deficiency can be treatment with antibiotics or sulfonamides. Certain proteins, such as avidin, which is found in raw egg whites and turkey chicks, absorbs biotin and makes it unusable for the dog.

After using **NEKTON-Dog-H** for a short time, and after the symptoms have subsided, dogs should receive **NEKTON-Dog-VM** as a basic compound.

Please note:

No other vitamin compound should be administered whilst using **NEKTON-Dog-H**.

Available sizes: 30 g, 120 g, 600 g

Statement of Ingredients: Dextrose, calcium carbonate, magnesium carbonate

Analytical components:

Crude protein 0.2 %, crude fat 0.02 %, crude fiber 0.1 %, crude ash 4 %, Ca 1.1 %

Guaranteed Analysis per kg:

1,350,500 IU vitamin A, 69,000 IU vitamin D3, 220 mg vitamin B1 (thiamine hydrochloride), 360 mg vitamin B2 (riboflavin), 10,400 mg vitamin E (all-rac-alpha-tocopherylacetate), 1,972,000 µg biotin, 2,160 mg calcium-D-pantothenate, 2,150 mg niacinamide, 300 mg vitamin B6 (pyridoxine hydrochloride), 220 mg vitamin K3 (menadiolone-sodiumbisulfite), 50 mg folic acid, 5,400 µg vitamin B12 (cyanocobalamin), 14,820 mg choline chloride

Technological additive: Silicic acid

Feeding recommendation:

0-5 kg body weight - 0.5 g **NEKTON-Dog-H** every 2 days

5-10 kg body weight - 0.5 g **NEKTON-Dog-H** every day

10-15 kg body weight - 0.75 g **NEKTON-Dog-H** every day

Proceed according for heavier body weights
