

NEKTON-Keep-Cool

Vitamin supplement to promote inner balance for dogs and cats

NEKTON[®]
PRODUKTE
...tierisch gut!

NEKTON-Keep-Cool ensures peace and relaxation for dogs and cats, supports dogs and cats which are nervous and restless, as well as keeping them calm in fearful or stressful situations.

NEKTON-Keep-Cool is a successful combination of natural components, such as chamomile, ginger and hops, as well as B vitamins and the amino acid L-tryptophan:

- supports production of serotonin in the brain and serves as a mood enhancer
- enables animals to experience positive learning experiences in stressful situations and to become more receptive to calls and training
- supports dogs and cats to cope with daunting or stressful situations more calmly
- can help to minimize abnormal behavior

NEKTON-Keep-Cool ensures of a successful combination of natural components and supports the animal's body with the help of the contained high-quality substances, to experience stressful situations more easily and calmly.

Advantages:

- **NEKTON-Keep-Cool** is not medication and does not change the animal's personality!
- has not numbing or impeding effects
- is suitable for long-term administration to consolidate the animal's positive experiences

Please note:

- The full effects of **NEKTON-Keep-Cool** develop after solid administration after around 4 weeks.
- The first step should be to have a vet determine that symptoms are not due to a serious physical illness.
- **NEKTON-Keep-Cool** not a substitute for the daily walking, training and nurturing of dogs or cats. A combination of professional training support and supporting compound is ideal.
